

The Radiance Masters Program Radiance Healing Retreat with Deirdre Hade • Mt. Shasta, CA

Join Deirdre for this profound healing experience as we enter the sacred grounds of Mt Shasta. The gateways into the Universes of Light are within this revered mountain. Deirdre will use her mystical gifts to open the doorways into the vibrations that are otherwise inaccessible. This high frequency is the liquid Anointing Light of Shekinah. Here you will transform at a cellular level, healing your unconscious mind of trauma, as you enter the field of "Quantum Creation." After this experience, you will be poised to be a leader for others - leading the way as an illuminated being to guide our world into the Age of Enlightenment. This is the Great Light of the Beloved and the Beloved - the "At One-Ment." This is your opportunity to know the true depth and the soaring heights of yourself as Soul.

What has impacted me so powerfully over the years is that Deirdre's guidance and wisdom-sharing is done in an atmosphere of so much joy, laughter, and emotional honesty. I've regularly laughed, cried, and spoken my deepest truths around Deirdre—it's her way! She brings people together with tremendous love, knowing that what we need most right now is authentic connection to each other—at the level of the soul.

—Amely Greeven, magazine writer, Co-creator of New York Times Bestselling book, Clean

I love all my sessions with Deirdre and I look forward to each and every one of them. I feel so fortunate to have Deirdre as my guide and teacher. She has the most wonderful, gentle, honest and pure approach. She has such a profound gift and yet is so humble about it which is very endearing.

—Tina Fischer, Polaner Selections

Working with Deirdre has been one of the smartest and most valuable investments I've ever made. My company's more successful, my heart and being are lighter and I am wiser, healthier and happier. The tools she provides are brilliant, easy to use and transformative.

—Marcia Wieder, CEO/Founder, Dream University

Deirdre Hade is a daily vacation from the frenetic stress of our lives. In just five minutes, you can reset your nervous system — from stress to deep relaxation. It is the medicine we all are missing. It is the antidote for stress. Simple, powerful and restorative."

—Mark Hyman, MD, New York Times best-selling author of The UltraMind Solution
